Step 3: Install and License the Software

==**Important**: For this step, you must be in the Technion or connected to the Technion network by VPN.==

1. Locate the file you downloaded and run the installer.
2. In the **Introduction** screen, click **Next**.
3. Accept the Software Agreement and click **Next**.
4. In the **Application Selection** screen, select all the available applications, then click **Next**.
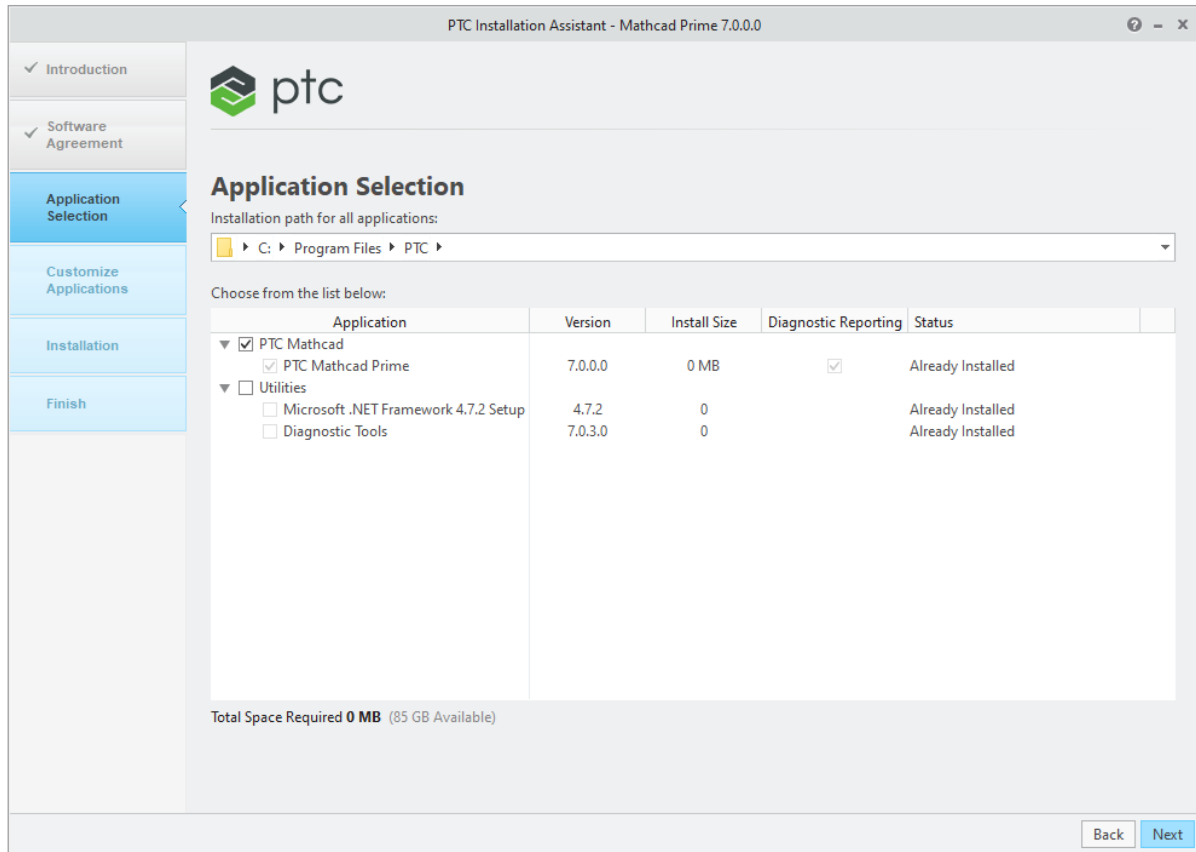

5. On the **Customize Applications** screen, click **Install** to complete the installation. When done, click **Finish**.
6. To license the product, run PTC Mathcad Prime 7.0.0.0. The License Wizard starts automatically. If the License Wizard does not start, refer to step 9.
7. On the **Welcome** screen, select **Configure product to use an existing license** and click **Next**.

PTC Mathcad Prime 7.0.0.0 Installation Instructions for Technion Students
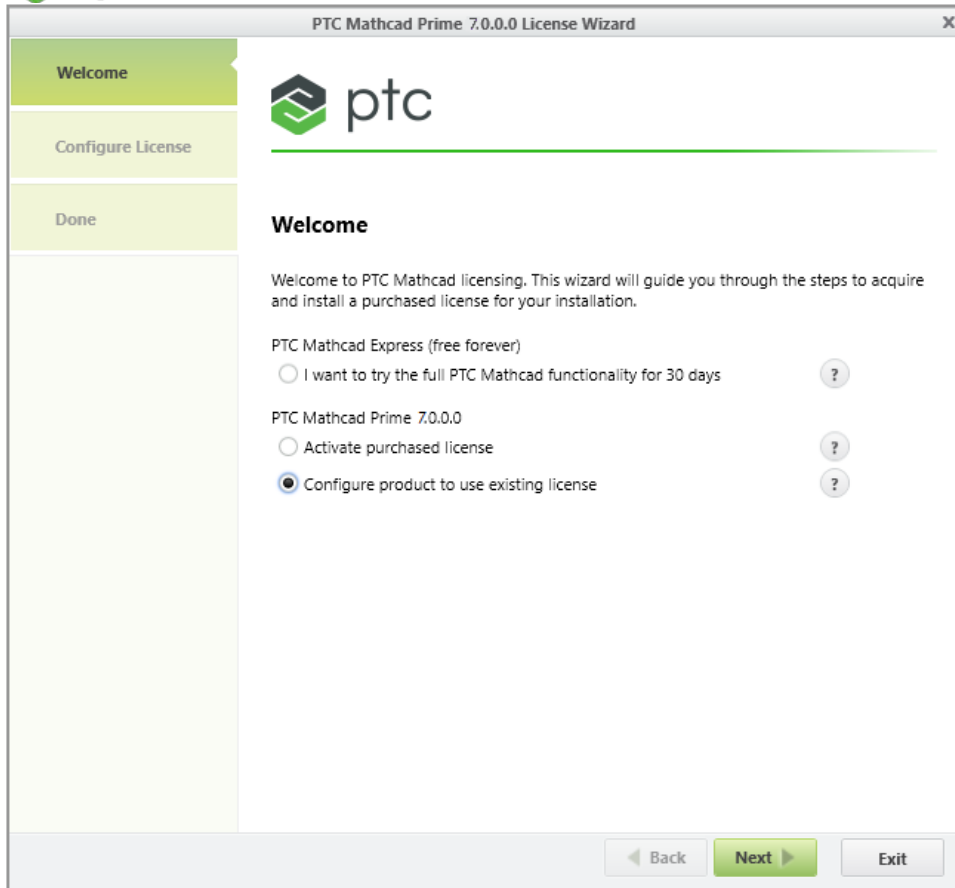

8. On the **Configure License** screen, add your license server address in the following format and click **Configure License**.

   **Server**: lm.technion.ac.il   **Port**: 7788

   *It may take a few seconds to detect the license server.

   When the license is detected, you can exit the License Wizard.

9. You can always configure your Mathcad Prime license via the **PTC Mathcad Options** dialog box. Click the **Mathcad Prime** button and then click **Options**:

PTC Mathcad Prime 7.0.0.0 Installation Instructions for Technion Students
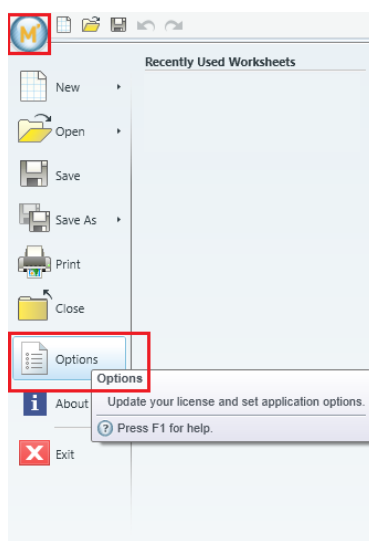

Click the **License** tab and enter the license server address in the following format:

When done, click **Get License**.
