

Thesis Process – Staff Member

The system is composed of multiple statuses used to indicate the stages of the thesis process along with all the relevant roles: the Graduate School, the Department, the advisor and the student.

The **student** submits research proposal

The **advisor** determines the student's progression at the end of the semester

The **Department** appoints examiners to examiner committee and the **Graduate School** approves the committee

The **student** submits thesis and relevant documents

The **Department** and **Graduate School** review and approve documents

The **examiner** reviews the work submitted by the student

The **examiner** uploads the evaluation forms to the ADVISOR system

Final exam takes place

In the case where the student passed the final exams with revisions, the **examiner** reviews those revisions
